

Comprehensive Solutions

ISS Solutions is a leading independent provider of healthcare technology management (HTM) solutions. We provide a comprehensive approach to the management of biomedical and imaging equipment to identify and eliminate unnecessary expense while maintaining regulatory compliance and quality service.

ISS Solutions' Benefits Include:

- Single call repair and technical support of all healthcare equipment
- On-call and pre-scheduled service coverage available
- Local qualified service technicians
- Complete asset lifecycle management solutions
- Compliance with regulatory and accreditation requirements
- Secure, 24/7 online access to equipment service records

*Because
Service
Matters...*

>> A Geisinger Company

Our heritage in the healthcare industry is evidenced by our 35-year relationship with Geisinger. As both a Geisinger company and the exclusive HTM provider for its health system, we have extensive experience proactively managing healthcare technology, as well as a deep understanding of healthcare operations.
