

Clinical Device Repair and Maintenance

Improve care with our cost-effective HTM solutions

ISS Solutions[®]

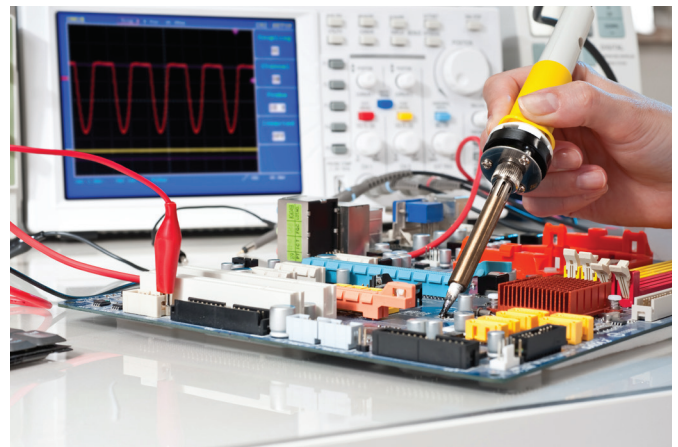

Healthcare Technology Management

Delivering exceptional patient care requires access to clinical equipment that is available, safe and operational.

Maintaining the performance and readiness of a broad range of clinical equipment is a never-ending challenge for healthcare providers when every device is in constant demand.

Let ISS Solutions Help

ISS Solutions solves this challenge by performing the necessary inspections and preventive maintenance to keep your equipment operating reliably. When equipment issues arise, our technicians respond quickly to resolve the problem correctly the first time, enabling you to remain focused on what you do best: delivering exceptional patient care.

Whether your organization is a specialty provider, surgery center, multisite clinical practice, or small clinic, our experienced technical staff is available to provide on-site service for your biomedical and specialty equipment. We tailor our flexible service programs to fit your organization's unique needs and budget.

Our Service Offerings Include:

Comprehensive
Inventory
Management
