Robust inspection and  
planned maintenance

Responsive on-site  
repairs

Comprehensive  
reporting

Instant access  
to your data

*No matter the size or complexity of your healthcare organization, our expert technical support team is here with reliable, on-site service tailored to your specific operational requirements.*

## Clinical Inventory Management

Clear and accurate visibility into your clinical assets is essential for ensuring regulatory compliance. Our HTM experts provide trusted recommendations to help optimize your service programs, ensuring organizational compliance with all regulatory and accreditation agencies.

## Comprehensive Inspection/Planned Maintenance

Our highly trained professionals specialize in planned maintenance for a broad range of clinical equipment assuring its performance, availability and reliability to minimize unplanned downtime and extend its useful service life.

## What Our Customers Are Saying

*"I've had the privilege of collaborating closely with the highly skilled technicians at ISS Solutions, a company deeply immersed in Healthcare Technology Management. These professionals epitomize expertise and professionalism, ensuring the smooth operation of healthcare facilities. ISS Solutions stands out as a trusted partner, playing a pivotal role in upholding the safety and functionality of our equipment." -- Jessica Roberts-Becerra RN, MSN, NE-BC | Co-Founder and Managing Partner for Vertex Surgical Solutions*

## Responsive On-site Corrective Maintenance

When repair is necessary we provide prompt, efficient, and cost-effective on-site service designed to resolve the issue quickly and correctly the first time, keeping your operations running smoothly.

## Immediate Access to your Data/Reports

Our intuitive performance program reports provide all the analytics necessary to achieve consistent compliance with all regulatory and accreditation requirements and are available to clients 24/7 via ISS Client Portal.
